

Sawdust wood pallet Production Line

Scenix pallet supplies high quality Sawdust wood pallet Production Line. We are professional manufacturer for innovative presswood pallets and compressed wood pallet machines in Qingdao, China. Customer satisfaction is our biggest goal.

Product Introduction

With trusted good quality method, fantastic track record and perfect consumer service, the series of solutions produced by our enterprise are exported to lots of countries and regions for Free sample for China 500kgs/H Popular Biomass Wood Pellet Machine Spruce Beech Wood Pellet Making Machine Wood Pellet Machine Pallet Machine Sawdust Wood Pellet Mill Manufacturer, Every one of the views and strategies are going to be tremendously appreciated! The good cooperation could enhance each of us into much better development! Free sample for China Wood Pellet Mill, Wood Pellet Making Machine, As an experienced factory we also accept customized order and make it same as your picture or sample specifying specification and customer design packing. The main goal of the company is to live a satisfactory memory to all the customers, and establish a long term win-win business relationship. For more information, please contact us. And It is our great pleasure if you like to have a personally meeting in our office.

Cheap Sawdust wood pallet Production Line Suppliers and Manufacturers

Introduction of Sawdust wood pallet Production Line

For the presswood pallet, the raw materials can be wood chips, straw, etc., which is the overall structure, panel and 9 support feet once mold shaped. The upper surface of the pallet plate is smooth, can meet the transport of various goods, the under surface uses stiffener. Plate longitudinal and horizontal force is balance, nine foot distribution to meet the forklift four-way insert. It is a four-way fork in, single-sided pallet.

The mould press pallet machine is one important part of Sawdust wood pallet Production Line, which meets with environmental protecting requirements. With the advantages of light, good

integrity, no nails and thorns, on-toxic and tasteless, non-rot, easy to clean, on combustion, no spark, waterproof, anti-explosion and anti-skid, quarantine-free, high recycling value and so on, it has been widely used in the storage and transportation of many industries such as food tobacco, pharamaceutical,chemical, machinery, electronic appliances, texcile, auto parts, beer and others, which is highly improving the work efficiency.

Specification of Sawdust wood pallet Production Line

ITEM	UNIT	MODEL
		SY-1000
Working pressure	Mpa	18-20
Output pressure	T	1000
Main oil cylinder diameter	mm	400
Main oil cylinder quantity	pcs	4
Cylinder stroke	mm	600
Maximum size of pallet	mm	1300×1200

Motor power	KW	11
Weight of machine	T	23
Machine dimension	mm (L×W×H)	3300×1600×3400
Production capacity	pcs/24H	200

Compressed wood pallet line

Sawdust wood pallet Production Line APPLICATION

Molding press machine is the core equipment of presswood pallet production. This equipment is energy saving, stable and easy in operation, occupies a small area, has no special request of workshop. It has reasonable structure design and the mold is changeable according the the pallet size you want to produce. The processing time of making one pallet is about 360 seconds, one set machine can produce about 200pcs pallets. It can produce with other supporting equipment full automatic.

Hammer mill
